Post Wood

Cyprian he is now getting well. But not able to speak plainly as yet he is getting a clear colour skin this has been a very tedious case. Stimuli has been very important.

Blistering of the head

Old case Phlegm Pneumonia double he is now getting this man was very low at one time and it was thought that it was impossible to get well it had passed into the third stage. There is now air in the lungs down to the bottom it is now turned to resolution. When ever he had an increased Pectoral distress we put on a Blister

Hospital

n. Prof Wood

~~Paralyses~~ attacked
with apoplexy and on
recovery found Hemiple-
gia. He must have had
effusion on the left side
of the brain, the blood must
be isolated and a mem-
brane shown around the clot
and it will be absorbed.

Low diet at first and light
animal food afterwards
if at the end of six months
or a year you find that
he has not recovered you
may then use Stimuli
with Phosphorus Electricity
now he takes Mush + Malt
and let the bowels be
regular

Prof Wood

old case Inflammation of the
Liver with pain in the shoulder
and in the liver this attack
has supervened on an old attack
Ireat cupping & Blue Mass
is getting well fast all the Sym-
ptoms have disappeared

Intermittent Fever

New Case Consepilas woman
taken with fever 10 days ago
had a swelling of one side of the
face purged her & gave 9/15 of
the Mercurial Tinct & applied
Mucilaginous cloths over the face
You may paint with Tinct Iodine
You should not resell the external
inflammation

Prof Ford woman

Anasarca of the extremities
and congestion of the lungs the
whole was owing to the heart.
Strong murmur with the first sound
Mitral disease regurgitation &
this has given rise to the dropsy
to relieve the congestion

Great Pot Be Tart 3j + Pulv Digitalis
a grain 3 times a day up to gr. v
all given in Bac Junepri Lia
& to relieve the Anemia we
give Pil Carb Ferri and
Sulph Quinine & wine whay
to relieve & strengthen him
also any cup

Rheumatism acut she was
very anemic and did not
treat energetically gave

Post Word

his Colchi + Morphia and
purged with Scudemore's Mast-
this patient sweats when she
sleeps + this is an indication
for Quinine the full influence
of this Medicine will cut short
the disease 15gr a day

Doctor Norris's Surgery ^{see 12/07}
McBride amputation of
his own Penis is now getting
well on a level with the pubes

Dressing of a Stump with
Hays operation on the foot
had a Erysipelas is now gone
away Stump looks well had
poultice up to this day now
simple dressing

Surgery Dr. Norris
Dissection of the Ulna
from dressing & poultice
with adhesive strips this
an irreducible compound
fracture

A Man Fracture of
the Ulna

Boy Contused and lacer-
ated wound of the hand
Supposed that the Metacar-
pal bones are fractured

A Man 50 Years old
An ulcer extending from
the lower third of the humerus
-rous down to the to the upper
third of the Ulna & Radius
with everted edges But
not certain about being malignant

Prof Wood Hosp Dec 16.

Dropsy in the cavity of the
chest on the left side. and gene-
rally ⁱⁿ all the cavities & cellular
tissue & also effusion into the
pericardium. On auscultation
a slight murmur with the first
sound. rough sound at the apex
of the heart high on the arch of
the aorta. Congestion in the
venous system. And we have
effusion into all the cellular
tissue and into all the cavities
Tests for this urine if Albumen
in the urine will coagulate on the
addition of nitric acid. Heat
also coagulates the albumen
and a low specific gr 1.015. This is
Bright's disease the Urea
has left the urine dropsy is a
sign of Bright's of the kidneys

57
Sept 6

Soft Wood Hosp
in Bright disease you have
the kidneys becoming fatty
the kidneys have not the power
of throwing of the water from the
blood and the vessels relieve
them selves by throwing of the
liquid in the cerebral cavity

Great a wine glassful every
3 hours of Mullein Punch as this
Man was in the habit of taking
it out of the house, He has an
irritable state of the bowels & we
cannot do as we would wish
we gave an anodyne enema
of Lincoln's which stopped the
irritability of the bowels we
must depend on Pot Be Tart
& Digitalis as the only Hope

Prof Wood

We must give Geni to improve
the blood you cannot cure
but you can relieve & prevent
further lesions

Irritation of the neck of the
urethra a constant desire to urinate
and he has been put on 5 grs of
Lupulin 4 times a day it has
been recommended in Spermatitis
and all irritation of the urinary organs

A girl aged 21 with Sciatica
was confined to bed was
blistered & purged along the
nerve & sinuses of the back but
she still complains of Pain
we supposed it was now purely
neuralgia & gave Iron 3 pills
12-11

Prof Wood Dec 16/87
but that did not succeed so
we gave him Sulphur Iodine
in large quantities 14 to 16 even
day has no pain at all and walks
very well give him now a less
quantity

easy Surgery Dr. Norris
Compound Fracture of the
Metacarpal Bones of the
also a Fracture of the condyles
of the Humerus also Fracture
of the spine Illium + a
Compound Fracture of
the Tibia + Fibula Stimulat-
ing treatment + good diet
a child 10 years old a Boy

Surgery Dr. Norris Dec 16/87
A Man aged 40 fracture of
the metacarpale bone of the 4 toe
+ 5. had *Brysepalietus* Inflammation
with a deposit of Pus under
the deep fascia of the glistia Mus-
cles,

Case 3 Boy 12 years
a Resection of the Tibia to be
dressed with Brans it now has
a good appearance the bone is
entirely covered with calus
Strips poultice oil Sweet + Brans
constitute the dressing

McCrois a boy aged 16 local
Treatment - Poultice + Support-
ing treatment - Necrosis of Tibia

Dec 16/57

Surgery Dr. Norris
A Young Man 21.
Calculus in the bladder
operation Lithotomy

Prof Wood Dec 19. 57
A Man aged 28 a ~~native~~
from the coast of Africa
who had Intermitting
the fever is now gone and we
have left Yellow Skin anemia
enlarged Spleen was put on
the usual prescription of
Iron & Quinine

Pil Carb Iron gr 5 TT
Quinine gr 10 in Pil no 1
4 times a day

Case 2 Another 25 years
Case 3 Another 38. Spleen
gets small on tonic treatment.

Prof Wood on 19. 57
Case 4 Another aged 30,
with the same fever and the
same treatment all getting
well

Case 5, A Man aged 30, with
Acute Hepatitis 4 times before
the glass well now Blue Pil 3
times a day until the Burns
were touched he got well quickly
he was cured

Case 6 A Man aged 40

Rheumatism with
inflammation of the Psoas
tendon or nodes on the bones
Iod Potass was given he had
general Pain

Case 7 A Man Aged 38

he was very weak & we gave
him calomel until his

1857

Prof Wood Dec 9,
 lungs wetted, bleed
 if you can Purg with Saline
 cath give Pulv Doveri in the
 night if that will not do give it
 in the daytime & touch the gum
 base of a Man aged 28
 with consolidation, resolved
 on the bottom of
 and emphysema & resinane
 on the top of both lungs

base of a Man aged 40
 effusion or dropsy in
 the chest give him now
 180 Pulv Digitalis 3 times a day
 & Potass.

base of a Man aged 45
 softening of the brain, when
 you have paralysis and

Proof Work Dec 19. 57
guiding you are not to suppose
you have inflammation. You
may have hemiplegia
Is in & good diet

Case 11 A woman aged 35
old Case General Anasarca
Pulse very feeble. high con-
gestion in the lung arterial
we had to stimulate & also
give an oz of Pot Be Tart daily
any cupping & blistering to
relieve the congestion
also with heart disease. But she
will die eventually. Make good
blood, and also gave Digitalis
and Opium to counteract
the purgative effect of the
Pot Be Tart.

Dec 19. 57

Surgery Dr. Norris
Amputation of the arm
about the ~~Middle~~ of the
shaft. From a cancer of the
skin. In early life when
this man was 2 years old he
was burned on the arm and
at the time of the amputation
a leucarnia extended from
the about the height of the incision
on of the Deltoid down to the
upper third of the forearm
in the presence of Dr. Pease
Miles & Morton Dr. Norris
operated, at the upper third
it was amputated

Prof Wood Jan 6th 58

Intermittent fever 3 weeks gone
 him Blue Map & Spec^x and
 wine whay he got at Teriberth as
 was indicated, he complained
 of pain in the Stomach & we apply
 a poultice over the abdomen
 he has had profuse Night sweats
 and we will give him Ferri

Rheumatism brief. Full pulse
 Swelling of the joints in the 8
 day when he came in, if we
 had him from the first we
 would have bled once or often
 we put him on Calomel & opⁱ
 had malarial fever he was cupped & bled
 from some cause he had a
 relapse we kept his bowels
 open by Senemores Mist

Prof Wood Jan 6
Slight Murre with the first
sound, she are diminishing
under the treatment

Rheumatism Infl.
there is a tendency to form
abscess from some cause I su-
ppose it is from a depraved
state of the blood. Scorbutic
I am God Polap he was getting well
but got worse gave 10 gr & he
is getting well under it

Dr Peace Surgeon

A Man 25 fell down 10 feet into
the hold of a vessel. when brought
into the house he was insensible.
had a depression between S & 6.
Cervical vertebrae. Believed to be
no fracture

Treatment Keep the patient quiet.
Draw off the water & give an
injection to clear out the bowels

Yokos 23 who had a poker
 $\frac{3}{4}$ in in diameter through his
thumb while loading a pistol
it grazed his forehead and
went through the leaf of his
hat.

Carbonate of the Slough has
come away looks well & we
will stimulate Keep up the Stomach

In Peace Jan 6. 58
Gunshot wound in which
the thumb was blown off
by gun powder from a pistol

Gun Shot wound in which
an amputation was
performed in the middle
of lower part

Prof Wood Jan 9 58

Hysteria came into the house in Convulsion Bleed and she came to, upon pressure up the dorsal Vertebra gave her pain & you may try this when you suspect this state in a woman Great leups along the Spine & Blister of Constitutional

Acute Rheumatism getting well under Dover P. & Calomel had a relapse from some cause

Be Carb. Soc. grxx every two hours to reduce the fibrine of the blood gr. iiii. Calomel every day getting well under this treatment. This was for indolent arthritis

Prof Wood Jan 9,
 Typhoid fever now in
 a convalescent condition
 when the tongue was desidedy
 my gave al Gerby & first
 Specac & Blue Mass
 An old case of Double
 Pneumonia

Rheumatism got well &
 Compresses in the foot
 apply Iodine & Linet Gemell
 Coulaids Cerate & Macelage
 in fever refrigerent

Intermittent with foate
 Enema of the whole system
 My view of this is that the
 enlarged spleen destroys
 the red corpuscle of blood

Prof Wood Jan 9. 58

Rubercular affection in the
left lung commenced with
cough & had a little Hemoptoeis
& Percussion gave consolidation
of the top of the lung, auscultation
gives a cavity with liquid.

a Boy 12 Anemia after
Intermittent fever 2m & Iron

Another 22 Anemia after
the Billious remittent 2m & Iron

A man who came in with
a edema of the lower extremities
got well under Prof Betant, but
had a discolouration given
an ash grey of skin 1580 31
and are nearly well

Dr Peace

gun shot wound the
ball passed through the
upper part of the left lung
came out above the Scapula
or was

a woman 30. with a
Polypus in the nose
used the Polypus forceps

Prof Wood Jan 16
Typhoid Case Convalescent

Corymbas. had attacked the
Anchle where there was a blister
on before gave Lind Ferri
Lanik with Iodine & Boric Acid
to the place where the cuticle
was removed. Goulard's Cerate
& Soup & Milk diet.

Typhoid Case Convalescent
was one of the worst Cases

Poriasis Palmari
Goulard's Solub 9 H 3 times a day
removed the Medicine after
some days & you will have
the natural action of the skin
give also Decoct Dulcamara
a wine glassful 3 times a day

Dr. Wood Jan 16

You should not use sequest
oint in the early stage
You must have constitutional
break first but you may
use Mucilage from the first

base of Intense fever getting
well under Iron Quinine.

Lary gets chronic
follicular, he has slight
brackling in the upper
part of the lung gave him
Al Monie but could not
retain it & took the larynx
with Solut Argent Nit +
a good diet, Al Liglin
around the Larynx.

Jeff Wood Jan 16
Molecular Laryngitis
feels that he has a pin
sticking him when he coughs.
He has had hemorrhage
from the lung. we have
an idea that he may have
a Syphilis treat him Iod Potas
ol Muri, al. Tinct & Chow
Blester,

Dysentery came into
the house in the last stage
with Meat washing dischar-
ged treated with Stimuli
Plumbi Act & Opia. She
recovered from this state
but collapsed again and
died

Do Peace Japs
Death Man 22 from
Fracture of Cervical
Vertebra about the 5 Vertebra

a Man who had a
compound comminuted
Fracture Tibia & Fibula
we had to reset the Tibia
to reduce it and being an
intemperate Man he
died from great suppui-
ration the Tibia did not
unite

Femoral Hernia Strang-
ulated reduce by placing
in warm bath pull
it down some & press
up reduced

1858th

Dr Pease Jan 20

Fracture of the femur
Use the long Splint of Physics
with June bags Adhesive

Fracture of the fifth cervical
through its body & 4 & 6 also
the man died

Gum Shot wound
2 inches Sterno Cleido Mastoid
Muscle went through

Abscess on the Posterior part
of the thigh following a
fall upon deep Penetrat-
ed & got a quart of Matter
out of it Poultice &
Support the Man - but
30 years old

Prof Wood Jun 20
Jaundice

Yellowness all over the
face & body grate amount
of Bile in the Urine. Clay colour
of the stools. he is only two weeks
since he was taken with this disease.
On examination with the
fingers over the abdomen
we find little granules like
shot under the skin. Purplish
tough of the skin.

No enlargement of the liver or
organic change we think it
is metastasis of the liver.

We will give some Calomel $\frac{gr. \frac{1}{2}}$
every night & follow with a
Cathartic in the morning of ~~the~~ ^{the} 4th
to with $\mathcal{Z}\mathcal{f}$ Sulf Magnesia.

Prof Wood Jun 20
a man 25- had a chill
every day for 6 weeks
has paralacis of one side
of the face. Muscles of the eye
local Palsy of the side of the
face. it comes from 7 Pain of
nerves or potia dura. it comes
from inflammation at the base
or cerebral substance & we will
cup behind the ear & farg
him every other day Sulf Mag³
Magnesia³ low diet & Blister
if this does not do I will put
him on Blue Mass & when chronic
will give him Nux Vomica

Alman 24 Abscess in the
neck Peroffela had a
cough for two years

1858

Prof Wood Jan 20
On auscultation find too much resonance. or more or less indication of Partial deposition & Consolidation
We should never drive away external Scroffula as it has a tendency to deposit in the lungs. In fact to let them suppurate according to Wood it would be the best Practice. we will give good diet & Cod Liver oil.

In Peace

a boy 12 years old
abscess on the front of the thigh below periastr
by aunt punctured
& puss discharged

Dr Peace Jan 20
Fracture, Pelvis by direct
force, fall upon the east Stone
transverse, dressed by
means of adhesive Straps
to the median plane, & continue
the spiral of the leg

Our Patient who has had
gunshot wound through the
upper part of the left leg
we have had no hemorrhage
for five days

Prof Wood

Case of External Scrofula
in the glands of the neck
we should not drive these
back according to Wood

A Man 35. Very difficult to
make a diagnosis to know
whether it was typhoid fever
we had none of the spots but
it could not be diagnosed
has an eruption on the
skin for which he got Lodg
a Lassar

Case of Hemiplegia
chronic for which he got
Mex. Cornica he is almost
well gets Lodg & Lassar
Lassar

Prof Wood

a m who had gangrene
of the lung got well slowly
was during Dr Gerhard's
Term after he got well
Dr Wood has diagnosed
Tubercular deposit gave
him al Morrie good diet
Porter + Morphia for cough
tubercular deposit greater
still consolidated. No resper-
ation in the bottom of the
lung gave chalky sputum to
correct diarrhoea + N

a man 45 who had dropsy
of the pericardium it came
from disease of the heart -
Strong murmur over the
upper part of the heart

Jan 23

Prof Wood
with the first sound
heart when we have any
of the branches of the Asta
Signs of Effusion have
almost gone some from
for the blood Vegetables &
Pot Bi Tark

Am Ma 23 Pain in
the region of the heart
dullness over the heart
Slight friction sound
Slight Percardites
a little blood from the
am or cup. Put now &
then low diet & blisters
repeatedly over the heart

Double Pneumonia will
the old case

Poor Wood

A Man 40. Diabetic had
an attack of fever since we
seen him last supposed to be
~~Compepelap~~ passed 12th some
days & 6 others on an animal diet
a little Ollary & Spinnage for
a change had Milk also exclude
Starch & Sugar, give him Iron
to improve digestion & the liver
had a tendency to paralysis
& we blistered at the nape of
the neck gave Yeast to
decompose the Sugar in the
Stomach & Yian Standing
Most all are of Phlegm

A Man 24 with some disease
of the heart got well under
the treatment above Prescribed

Prof Wood Jan 23

An Man 50 old case
when he came in he had
great congested lungs
could not lie down but the
grate one is Anurism of Aorta
Percussion yields no sign
Keep the blood in a state
to deposit fibrin
when Anurism front Dept
takes a little Tinct Ferri Chl
the only hope is that coagulation
in the anurism

A Man 38 who had depo
sit in the lungs of Moni

A Man 25. Acute Rheumat
leal Specia Mouth locked
Set well over & purg & others
that are called for

Dr Peace

Strangulated Inguinal
Hernia had no passage

~~Had~~ a surgeon called &
could not reduce it came with
an other & both failed he was
taken to the hospital & Dr Morton
put him in a warm bath
& reduced it without any trouble
had this morning vomiting
of fecal matter & has now
Proctitis & warm fomentations
Colonel & keep the bowel
open Says he never had
Hernia after the reduction of
the hernia he discharged
PH₂ but stopped & has now
complete obstruction

Dr Peace Jun 23

A woman 60 came in to
the house with an Ulcer
from the the middle of the
Tibia + Caries of the of that
bone. the Ulcer extends down
below the Malleoli we will get
her in a state to amputate
if you think necessary
Chronic Ulcer

An Man 30 Gynaecology
fell across a rope Swelled
next day had pain until
it was leeches, two or three months
ago, Infection used Iodine 3p
Spt Van 3p Powder
Successful

Poor Wood Jun 30

A Man 50 years old. who has
great difficulty in breathing
quick pulse but feeble a slight
cough, purring sound to the
hand. Clearness on Percussion
has narrowing of the bronchus
on the right side and this
pressure is from an aneurysm
of the Aorta a little to the
right of the Sternum. Let 243 Vib
give soon to improve the
Blood & increase the red Corp
uscle. Give Milk Bread &
see anything that will not
stimulate & to keep it in
regular quantity, & to take it
away the watery Part of the
Blood. Saline Bath will be the
best. also give Plumb. Act.

Prof Work Feb 30

it will diminish the heart
action & to constrict the Arteries
mal Covaty give 8-11 four times
a day if it should produce a blue
line around the gums & Colic
Pain will show that it is acting
on the system & will be stop for
a while we use the Tinct. act
Terri so that it shall not be
incompatible with the lead

A Man 35 who had something
pressing on his Bronchia appears
to be getting well from Pleurisy over
the chest has now inflammation
of the hip joint. Treatment
Keep at rest Pleurisy over the
joint & Dox Terri & good
diet at Morning

Prof. Wood Jan 30
a Man 45 who had general
Bronchitis but has had a depo-
sit of tubercle Percussion flat
on the right side very much so
clear on the other side
gave him Ol Monie & Porter

Paralacis Portosaura
or ~~Poir~~ behind the ear
cupped & blistered seems
to be getting well

2 Dec Inflammation Larynx
cannot speak above his breath
Agent Nit. & Ol Monie & regulate
the bowels

a man who had a cavity and
pleuritis locchy now gone but
crackling

Dr Pepper Feb 3 1858
A Rheumatism in a Sailor
of full vigour Gabet
in the joint and he has it in
all his joints 27 years old
he was bled 12 oz & Purged with
Magnesia & Carb Magnesia &
Nutral Must or Lemon juice which
Dr Pepper Values very much
In young persons there is great dan-
ger of Pericarditis young people
are more subject to this disease of
the heart & are more amenable
to treatment. it is more serious in
older persons not so amenable

A Sailor 24 years old
comes on with a chill case
Pneumonia severe Pain in
the Side in the Posterior -

Dr Pepper

Part of the lung Open 8/14 Apr 14
Colonel 1/2 gr every 2 hours
The brain is only sympathetic
we have very little cough when the
lower part of the lung is affected

a Young Man 23 farmer

A Young Man 24 Years old
discovered about 10 Months
ago an enlargement in the
region of the Spleen and in
the opinion of Dr Pepper it
weights 10 lbs the Man states
he never had chill. This
Man lived in Roswell and
about a year ago moved 2
miles outsid Roswell

Dr Pepper
which is a Malicious
disease & we suppose that
it must be engorgement of the
Spleen the Man looks
very Anemic he was
put on Iron Lin & Pant
with Lug Iodine

Ana aged 41, convalescing
from Typhoid fever was
first put on alliteration doses
of Blue Pl after 10 gr of Turbent
& supporting treatment with
whisky, Carbamon Beef tea
You must also guard against
Bed sores & the best way is to
Anoint the part with alcohol
Keep the bladder empty

Dr Pepper Feb 6 58

A Man aged 40, with Sanyge-
tis: about 2 Months Standing
had hemorrhage twice about
a pint there are 3 cases first
Syphilis 2^d Tubercular and
affect Atmospheric Influence
Feb 10. 1858

A Man aged 42 Diabetic
An old case seen before under
Dr Wood this man has a peculiar
State we often find him whe-
brate desperation.

Takes Calomel at night
has not such an appetite of
as he had Sp 8 1038 when
he came in has now 1035
Sp 8. Some think that it comes
from irritation at the base of the
brain & Prof Wood has

Dr Pepper Feb 10
applied a blister at the base
of the brain or back of the
neck when this man
came into the house the wife
passing 87 all of water a day
and drinks that quantity
also he now passes 5 pth

Treatment Anamae diet-
+olagenous Matter Cebge
Sellery best alcohol is Carb
Ammonia 10 to 15 gr 3 times a
day Rseasote good digest
Opia also is good act on
the Kidney
sennet is the best remedy
put into the aera wine
it destroys the Sugar in the
System

Dr Pepper Feb 10. 50
1
Spt Lincith 3/4
Aqua
Sctum 3/4
Spt Musc 1/2
Spt Lincith 1/2

A Man aged 36 who had
a Hematoma of 2 gall
~~the same~~ has got a curd of
the liver Infus Canabes In
is an excellent Decoct
he is taking Fern's good dect
Dr Parrish's Cedar Mixture
is an excellent Decoct. he
is to take the Infus Canabes

A Man aged 30 with
Paralaxis Folio Rosa of the

2.12.58

Dr Pepper
Right side of the face
it is a local disease it comes
from congestion you may
use & give Calomel, lodine
and internal & External
& electricity we will now
commence with Iodine
Dr Wood. Does not seem to
it until it is chronic

2.17.58

a Man aged 20 coach
maker, cough two years
cold from exposure
about two weeks ago he
had a Psoffulous swell-
ing in the glands of the
neck. You must not
drive them away by
local treatment

2.17.58

Dr. Pepper

If you do the will settle in
the lung, but if you get rid
of these swellings by consti-
tutional treatment such as Doc
Pot. soon good aetrol Monie
you will have no deposit
this man has no signs but
dullness under the clavical
But this may be an enlarge-
ment of the Bronchial glands

Sailor 23 aged now well
from Pneumonia it ex-
tended from the top to bottom
of the lung. Very little treat-
was used excepted when he
came in belated open at
night he had chestnut &
Tart Emetie he got low

Dr Pepper

2.17.58

& we gave Stimule Beef
essence & some whey & egg Nog

A Man aged 37 had
rough 20 month vomited
a large quantity of Blood
is an intemperate Man
Hean spleen & sugar of.
Lead & opii has a bloated
face & we suspect the Re-
dness & we found a trace
of Albumin in the urine But
on testing for it today we
found none or it may be
commencing leucosis,
or Album Urina Hepatitis
& tubercle of the lung

Dr Pepper

a Baker who went to
the Siege of Sebastopol
was wound in the neck by
a shell had a Hemorrhage
in 1854. has crepitation
in the lung & a cough for
two months. we suspect
capillary Bronchitis. he
has swelling of the legs but
we cannot account for it
no Albumin in the urine
Spes for 10 health should
be from 15 to 20 this man
capillary Bronchitis at the
lower lobe of the lung for
this we will cup & blister
him

Dr Pepper

2. 1788

a Boy 18 while in
South America had for
when on his way he had
chill & fever with sweat
while in South & he had
opisthorchis with the fever
& this must come from
the enlarged spleen
in Typhoid fever you
have enlarged spleen
& always & the spleen
must be the centre of the
poison in Miasmatic
fever Icinodine 100 will
give him 11 gr every two hours
until he has 12 gr 16 gr of
Leinchonia will check
a process effectually
Your patient's now will unite
the spleen is reduced

2.17.58

Doctor Peau

A woman 47 who has
nervous of the Tibia upon
consultation, the leg will
be amputated this is
also an ulcer of 30 years
standing operation over
a kind of a circular flap was
the mode of incision taken
of at the Tubor of the Tibia
The bone was very soft—

Dr Pepper 2, 20, 58

A young woman 18 years of
age confined about 8 months
ago of a Baby 4 months
after his labour after working
hard. She was taken with
great pain in the right side
She was obliged to wear his
child & lightning in the bed
She was Bleed & Blistered
about 18 days ago. She was
admitted into the house.

She was put on an expectorant
treatment. She has hectic
at night. She has had chronic
Pneumonia with Spreader from
the first. She will be put on good
diet & she will be built up
when a woman is Nervous it has a ten-
dency to bring on Phlebotomy if not disposed

Dr. Pepper 2, 22, 58

Woman aged 36 was admitted - three month ago with edema of the lower extremities & dropsy of the abdomen with rusty Sputum. She had a Rheumatism about 7 years ago which has given her

A woman aged 20 with Scoriases guttata round and diffused. In spots all over the body Treatment 5 gr. Iodine Solut three times a day & Bar out if you should suspect Diffusio use Iodavon

Dr Pepper
a Man aged 17

In Bronchitis
You may give Carb. Am.
By Lencz. Another is
Solub. Phosph. Pot. Cit.
Aqua Br.

A Young woman 24
Sick 4 weeks taken
with chill & pain in the
side. She had delirium
had no cough or expectoration.
The delirium often masks
the cough & expectoration.
Some of the Pneumonia is
left at the upper part of the lung
we are in danger that it will
suppurate we have

Dr Pepper 3. 13. 58

dissected vent of Lod X & got to 31
& got P. rap taken inwardly
Perfectly flat under the right
clavical apply a blister 3 & 4
grate possibility of an abscess
not much hope! she always
get well if not tubercular
by we are suspicious when
it takes place at the top

A woman 35 who has had
Rheumatism all her life
& for the last 8 years more so
she has had acid Sweat
& one big Lymph node
given Solut Vin Sicc & Morphine
8xxx will equal X & P Doveri
she has disease of the mitral
Valve as we have it always

Dr Pepper 3.13.58
in Rheumatism in acute
forms of this disease Lemon
juice has been very successful
under Dr Pepper

A young girl 16 years with
acute Phlebo had no symptoms
until two months ago, she
has no tubercular deposit
in one half of the left side of
the lung anterior no
crepitation no dullness. But
it amounts to gurgling & we
put her upon Iron good diet
at Morris

Dr Pepper

A young woman aged 20 a
milliner had a cough 7 months
had a hemorrhage 1st 4 months
after had another hemorrhage
a quart confined altogether
to the left side has a running
pulse

Cases of Sun stroke treated
by Dr Sivi in P. H. the most
successful are those treated
by Stimuli by enemata and
by the stomach of Lercbuthin
Linie Mucilage two or three
every two hours boald to the head
heat to the feet hot bath if it
can be had if not do not use the
warm bath

July 21. 1858

Dr Levee

Potent Pleuritis you may have it for several days or weeks and will not be recognized unless you examine the chest. When you hear egophany you are sure that you have a little Lig in the Plura, the Standard remedy is Hydr. Scilla. Oegeta. You may have this from Tubercle on the Plura & avoid Calomel in these cases & as a substitute give Iod. Pot which has been found very efficient. By Dr. Pepp & Levee Goss in Syr Sarsp three times a day

7.2.58

A Man 30 years old who had
Dysentery and got well under
opii. Phomb Act, who has
now a diarrhia and a pe-
culiar Blue Line around
his gums which we think
comes from the Act Phub
but he did on get more than
88s a day we should never
give more than 36s

MAN Dr Pancaest 7.2.58

A Boy 12 year old who had a
pooler bottle exploud giving
a severe wound of the Fore
Arm. And a deep wound
on the os frontis extending from
the inner side of the orbital
process extend two and half inch
is. a number of Pieces of glass

and bone have been disch-
arged. this happened on 4 inst
he has now a polypoid mass of
the brain through the open-
ing which he thinks will
be fungus Xanthodes
Prognosis bad.

A Man aged 30 who had
his foot amputated at the
ankle. The flesh was torn from
off the bone all round. the
arteries were sound. Resect-
ion was performed and
it seems to be doing well. a
suppurating abscess
on the 31 kept dropping on the
hand night & day

A Man aged 25 who was
beating in Phoenixville
and had a stab in the left
back and also received a
blow on the head he could give
no account of himself or the
circumstances, he has para-
lysis on one side

A Man aged 50 with epith-
elial cancer on the lower
lip extending from the first
molar tooth round to the
edge of the masseter muscle
Dr. Pancoast performed a plas-
tic operation removing the
whole lower portion of the
lip and set of the skull on.

7-21-58,

The left Side dividing the
facial Artery on both
sides and the duct of Steno
on the left side. divided
the cheek on the right side.
And brought over a flap
for a lower lip. looks bad
and rather a bold opera-
tion. Dr. Norris & Neil
Smith Hutchinson &
Hodge were assistants
The man died.

To Wood Nov 10. 58

A Man 35 with malarial
fever after cups we gave
Blue Mass ^{1/2}pec ^{1/2}op ^{1/2}in
the second stage if it is not
getting on well we touched his
gums gave him what he
~~is~~ getting well

A Man 22 with typhoid
dry tongue involuntary
evacuation of feces + urine
10 gr of Turbith evg. two hours
were glappful and a heavy
sweat. At night in 24 hours
in form was what
coma still continued +
increased involuntary
evacuation. Shaved the
head + blistered all over
he looks well feels well

he was still weak and
we gave him Mull's pure
3gr opii every two hours
for the diarrhoea

50 yrs
Aneurysm of the Aorta
was here this time last
year was Anemia gave
him Ferri & Digitalis
the disease is spreading
he has a large Sack formed
in the chest. The Venous System
is loaded & we do not have nu-
trition badly performed we
have effusion all over &
Anemia

A Man 30 with forming
tubercles, rapid
emaciation. Ferri & Monui

Am 35 - Oxylusca the oxyl-
ates were seen under the
Microscope to day by Dr
Wood Nitromuriatic Acid
5gr three times a day

A boy 14 with oxylusca with
Anemia Lact Ferri M
+ Nitromuriatic Anemia
will oxylate still continued
2gr three times a day

Lymph, Rheumatism a man 2 yrs
Dwelling without pain
of the pericardium give
5gr Sod Potas three times a
day

Nov 10. 1888

Dr Norris Surgeon
A Man 35 admitted two
weeks ago with compound
comminuted fracture of
the humerus at the elbow
joint had also concussion
fell 90 feet from the Catholic
Cathedral will amputate
by the circular operation
over. by Dr Norris assisted
by Dr Nell. Smith. Hatchison
& Hodge at the lower third
Dressed with cerate lint Mas-
per & Bandaged

11. 18. 58

Dr Wood

A young man 22 yr who
has Interic fever has had
a blister over the whole scap
is now more conscious if he
had a tendency to come
we would reapply the blister
he is also taking Diet
milk punch

A Man 30 yr who came
in with enlarged abdomen
& limbs enlarged put on
pressure. On percussion over
the lower part of the abdomen
it was flat on percussion we
find fluid in the abdomen
liquid in the left Pleura.
also in the right Pleura (more
on the right than on the left)

Nov 11/13.58

Dr Word

Flap up over the region of the heart indicating effusion into the pericardium. On auscultation we find the sound muffled which indicate effusion & suffusion with the first sound.

Kidneys are healthy no albumin in the urine. roughness at the first sound indicates disease of the valves of the aorta and perhaps in the Mitral valves, roll him on his side and percuss the liver we find it shrunk. And now we will give our diagnosis he has also some cough we find the

11.13.58

Dr Wood

Subleant respiration. which
at Monic 31x three times a day
Pot Bitart 3j, Bacc junij 9

A Man 40 who had an
attack of dysentery after
that he got pain in the ^{back}
of shoulder & stomach, has
palsy all over, but can
flex the lower limbs part-
ial as to degree but effects
all the limbs it is situated
within the cranium but the
muscles of the face are not
affected, we think that he
has had inflammation
of the spinal marrow he has
on loss of sensation, no
Great we will take one or two

11.13.58

Dr Wood

of blood from bet the shol-
ders and dry cups along
the spine. And good diet
give a laxative also & Rheum.

11.13.58

Dr Norris Surgeon

A Man who was run over
by the passenger Rail way
Car will have an ampu-
tation. It was performed
by Dr Norris at the middle of
the leg circular operation

Dr Wood 11.17.58

A Man 30 brought into
the house comatose when
brought in. He was cupped
freely, we could not find
pulse after cupping 135. but
weak. had his head shaved
and applied a blister
over the whole head he
has recovered consciousness
gave a purgative enema
when he was able to swallow
we gave Senna & salts
I think that the blister
saved his life

A Man who has been in the
house for 8 or 9 months with
great distention of the abdomen
with flatulency we relieve him

Dr Wood 11. 17. 8
by gentle Laxative & Opium
to prevent vomiting
we think he has Catarrh
of the sigmoid flexure
we use the bougie

A Man 40 who has vom-
iting and smooth tongue
we give 30 1/3 Nit Arg 1/68
Opium three times a day
Chronic Gastritis has
also an Aneurism of the
Aorta we will now increase
Argent Nit

A Man 22 Intermittent fever
getting well who had cholera
many evacuations per R. &
N.

Dr. Wood 11. 17. 58

A Man 22, with
Syphilitic Loriae or
Tertiary Syphilitic Blue Mass
+ Iron Pills

Pathological Specimen
of the liver of a man who
died of Malaria had a
fracture of the leg the fatty
degeneration another from
chronic inflammation in
the coats of the spleen a
cartilaginous degeneration

A Man 21 with disease of
the heart & lungs, Sick 4 mo.
if you can before that I had
shoots of brook had pain
in the region of the heart for

To Wood 11/1/58

a long time on percussion
on we find more flatness
on the left side of the chest
upper third flat over the
heart for 4 inches flatness
it beats at the same point
auscultation loud ringing
sound simple & perfectly
with dilatation it has
grown with his growth
he is also Anemic he
wants nutrition for the lung
we give at home & Pil
Carb Ferni for his Wood
180 Digitalis 3 times a day

Dr Wood 11.20.58

A Man 30 who came in
with the sequelae of Intermittent
fever. on going round the arm
I observed one limb swelled
and not the other resisted pit-
ting on pressure venous colour
of the veins we find this is
inflammation of the vein which
obscures the blood on exa-
mination in the arm we found
it sore & he complained of it
we find it to be Phlebitis we
leached & afterward blistered in
the arm At Bi Lark as a lax
& regulable diet

old case Gastritis blister &
Argent Nit & opii three times a
day lost his gastritis. he was

Dr Wood 11.20.58

found to have aneurism of
the Aorta on percussion we
find over the Arch

What is the difference between
a true and false Aneurism

R Lys Sella

" Senega $\text{gr} \frac{31}{31}$

Sol Morphine

" Yin Sella $\text{gr} \frac{31}{31}$

H. H. Mush

Salteaspoonful 3 times a day L.P.W.

A Man 23 who has passed
10 gts of Urine per day, by tests
of yeast from urine we find it
to be diabetic Urine or Saccharine
S.G. 1.030 Cause

Dr Wood Dec 1. 58

A young man 21 who came
in to the house with dyspnea
in his mode of walking.
It arose from Plethora. we
bled & purged so as to reduce
the amount - this man had
Intermittent fever before this
came on

A man 30 old oxyluria
continue the treatment

A man 40 Anasarka of
the extremities. he had
night sweats at one time
before the effusion. had a
cough & slight Hemorrhage
perussion nothing striking
oscultation night lung crackling

at the top left side. nothing
it may be advanced to soft
ning, on examination of
the urine by Nsg. we have
a precept of albumin + heat
heat - confirms the test.

S. B. 1020. This is a case of
Bright's disease. Microscope
reveals only oil globules
which declares it to be a
fatty degeneration. It may
be owing to a low state of the
nutritive functions.
improve the health.

Pil Carb Ferri, 90 3 times a
day the best diet. Pot Bi Tart Z
Inf Bacc jump of to be used
in 24 hours. Any cups over
the kidneys.

Dr W 12.1.58

A Man 35. had a cough
for a year feeble pulse
percussion on the right side
flat clear on the left side
auscultation on the left side
respiration good on the
right side you have hollow
inspiration as in an empty
space a little amphoric
and gurgling
of Muc. Fern + a little
Morphia & Solat

A Man 30 who had
Bronchitis getting well with
empitago + ecthema on the
chest. will apply Glycerine
occurring from local cause
after a Plaster

Dr Wood Dec 4. 1858
Postmortem of a Lung of a
Patient who died of Typhoid
right Lung filled with Tuberc.

A Man ~~DS~~ who came into
the hospital convalescent from
Typhoid fever, who had an
abscess on the back
in the region of the Scapula
is getting abscesses on the upper
part of the thigh Dr W thinks
that he comes from absorption
of the poison of the pier ulcer
and the fibrin of the blood
has been poisoned, & as the
blood has been depraved
we will give tonic Decimur
apii: Sarsp, Porten & Nitro
muriatic acid in blood
poisoning & will be found efficient

Dr Wood 12.4.58

A Man 35 who has had
violent pain in the head
for 3 weeks, pulse frequent
& feeble tossing at night and
very much disturbed. he
has a tendency to hold the head
backwards. had a tenden-
cy to ~~looseness~~ of the bowels
we had no doubt of infla-
mmation of the brain and
meninges. we gave an
anodyne ^{three or four} Arsenia Mule
punch. Blister to the whole head
& he improved has now a
natural pulse. no delirium
& sleeps. we attribute a good deal
from the blister. we do not
know whether we have the
Interric here or not
good diet

old case Diabetes

he would not tolerate meat
& so we gave him potatoes
and he improved he is
taking yeast at the same
time. he got tired of Pot-
and he got rice and the
time increased. got back
to Pot & Yeast

A Man 25 - complaining
of Pain in the Dorsal
the neck

could not walk we regul-
ated his diet gave him Pot
had a slight Rheumatism
feeling well

A Man 30 old cough 4
years spit blood percussion
unusual resonance on the
left side. duller on the right
Auscultation right side
Rude respiration indicating
deposition. Has paralysis
the right Arm & Leg or
hemiplegia from effusion
of blood at the base of the brain
Cathartic & every other day
blisters to the back of the
neck takes of Morrell for
his chest affection & low
diet.

old case with chronic
diarrhea got well & went
out. got cold & returned
with a Swelled Testes

leached + ~~could water~~
Poulticed low diet
rest + purged occasionally
he is now getting well
we have my God P. P. oppo
twice a day

A Seaman cough 18 mos
never spit blood. had
emaciation Sweet P. pulse
percussion clear on the
left side not so much sca
sones on the right side
Auscultation on the left
side + crackling at
morning fresh air
good diet

Dr Wood 12. 8. 58

a girl 12 years old with
paraplegia. if you tick
the foot and you have no
reflex action you may con-
clude that the spinal column
is the seat of the disease
if you had reflex action
the spine would be healthy
& the brain affected. we
have leeches & cups &
surged calomel & jalap
Pot-Ber Lark, diet Milk and
farinaceous.

A Man 25 Interie
liver now in the 2nd week
give Blue Mass & opia
as he has a dryish skin
tongue we increase the

Saliva And alter the stage
of the intimate ulcers

P. Hyg. sub-grii
P. speciae
P. optis cagri
P. il. oil no 14

but Milk & arrow Root
& no Milk too? No.

A Man 50 with Rheumatism
when local for a long time
you may cure with repeated
blistering.

A Man 40 with the
same affection both
getting well

A Man 20 with Rheumatism
Gout we tried Mercurosal
but was still obstinate

the is a chronic case
we now give repeated
blistering with the cons-
titutional remedy pay-
up the mercurial & Gum
Guaiacum Benzoic & Rub
Doveri & good diet

A Man ^{old} 30 who had Phe-
bitis with effusion, of the
leg getting well soon diet
rest & leeching & blistering

Old Case Oxyphosca,
we have now irritation of
the urinary passages & we
find the urine greatly acid
we will modify it by the use
of 30 gr Bi Carb Soda 3 times a
day

Dr Wood 12.8.58

Aluminous urine with
tuberculous. he has fatty
degeneration as we found
oil globules. he had infl
ammation of the Kidneys as
we find casts in his urine
And oil globules were fou
nd in them. we must
support his strength & improve
his diet Iron, Bot Be
Yan, to act as diuretic it
must be absorbed. give Sed
opis with it. good diet
& use cups to the spine for
a revulsive

Dr Wood Dec 11. 58
Coloured Man old Case
who complained of great
pain in the head died
on

A woman 30 who came in
with pain in the chest
spitting rusty Sputa & had
a offensive breath she had
been sick a month
we concluded that she
had Pneumonia and
that gangrene came
on we gave her 18r Quina
3 times a day, $\frac{1}{2}$ gr opii 3
times a day for the nerves
& Carb Ammon to stimulate
the lungs to throw off the
matter in the lungs

She is also taking a
good diet she all gets
milk punch. I had
a case like this & with
these things I gave old
Morrill

A Man 40 who has
Inflammation of the
Kidneys we discovered
cysts in the urine & pus
globules cysts were very
few when he first came
in we had him bled
& blistered over the kidneys
we now give old Sarsaparilla
& a good diet & wine when
the pelvis is the main part
diseased,

A Man who had
pain in the pericardial
region. Had Influenza
Rheumatism in August
last. Felt weakness since
then about 5 days ago
he had pain & increased
palpitation. had muscle
sore at the top & we thought
head friction we cupped
& blistered & Digitalis and
Iron for his anemia
frequent pulse & light fever

Dr Jack Ross

A girl who was poisoned
by taking Arsenic she had
paralysis of one leg & arm
we gave Iod Potassa &
eliminated it from the
system she got well but
we did not examine the
urine

Dr Wood

A Man 22 who has had
all the symptoms of Enteric
fever & who believed he was
dead. We had his head
battered & he now believes
he is alive again he
gets wine & hay Arrowroot
regular treatment

A Man 25 who had Intermittent fever he got well & he had an attack of vomiting every other day gave Peppermint & he got well. He then got a headache every other day we put him on Peppermint and he improved his headache yesterday he has also Bronchitis.

An Man old case who has Rheumatic gout attacks the large joints with distortion we give Dover's Powd at Night & Sassafras as an allaying we will blister the joints when it gets chronic and Scedermores mist every other day he is getting well.

A Man 50 who has partial
paralysis, partial on the
whole left side, the Portia vera
on the left side is also in a
paralytic state. The branch
of the 5th pair that supplies
sensation to the right side
is also paralysed we think
it is from softening of the
brain we had been cupped
on the right side we will
follow with a blister & we
will give you strychnia
4 times a day

A Man 40 who has
paralysis on both sides
Cause is situated some
where in the cervical
Spinal Column

A Man 45 who has over
used under the microscope
some Retro-Muriatic acid
8th 3 times a day

A Man 35. eight months
ago he became Amortie
& went on for four months
then he had shooting
pains in the legs & back
& four months from that
he lost the power of walking
he has pain in the back of the
head has also a loss of sens
ation. we have no reflex=
action on tickling the foot.
he has power of all the
muscles. but he has not the
power to direct them he
disease at the base of the

Dr Wood Jan 12. 57

Brain & Cerebellum &
also disease in the spinal
column, we must look
upon it as Rheumatic Infla-
mmation of the chronic kind.
he got it from cold
we will use 3gr Blue Mass
4 times a day & blister
at the back of the neck
use Sulphur as a laxative
& 15 gr Vin Ros Colchicum
three times a day

The Man who believed
himself dead is still
alive (behold we have
found the red spot) of his
tense fever. Wood, Bot
continue the ol Lerebunth 15 grs
3 times a day regular diet
had two blisters on the head

a Subject of some Interest
has fever in Charleston
has Amarois from to large
doses of Quinine Amarois is
only partial we hope cure
this man

Acute Rheumatism we
purged Dover power at
night Scudamores Mist
has cardiac disease
buped blistered

old Case of Aneurism
of the Arch aorta from
vegetations for the America

Scrophulous Infol Rheumat
blisters a nie

1. 12. 59

A Man who came in with
Quick pulse gave Digital
examining the heart we
find A Murmur with
the first sound of the heart
high up indicating an
Aneurism of some part of
the arch of the Aorta we
will give Iron & Quinine
+ Digitalis

1. 15. 59

Death from Mania, et was
Inflammation of the Brain
he was in the advanced stage
this man did not know
anything when he came in
he received a blow in a spasm
we found 5 oz of Bloody
Serum in the cavity of the
Dura mater Pra Mater

Full of blood & some little
exudation. no serum in the
ventricles he died of Meningitis
he had blood extravasated
between the mucous Membranes
of the Stomach it is black
from contact of acids

A woman 26. who has
had Hematemesis for 3 mo.
all astringents were tried
& failed gave act Phosphi
Sulph Line At Argem
the Menstris was stopped for
6 months & when the Menstris
came on, the Secretion stopped
She had warm hip baths
Aloes & Ferri. the Secretion
was very offensive to the
patient & if she swallowed

It would make her
sick. it was offensive to
the attendants

A Man 35 who came in
with slight Meningitis
purged & bled he got well
& again got pain in the
head fever strong pulse
he had another attack
cupped again. blister over
the forehead. Nutra Must.
he is well

The man who had the
epilepsy who missed his
attack for 6 weeks which
occurred every two weeks
under the use of Quinine
has had 3 attacks two at

might come in the morning
showing that the excitement
is stronger than we imagined

If this is we give ol
Morni & if anemic we
give Ferri If hemorrhage
comes on we stop the ol & Ferri
& give ol Trebuth If we
have troublesome cough with
to much expectoration we
give Morphia if we have
Bronchial disease we give
Syr Scilla or any expectorant
Linca Carb Ammonia

A Man 24 who had Hypertro
phy of the heart ^{*slight anthesis} we give ol
Morni & Ferri & Liq Digitalis
3 times a day

Dr Wood 7.15.59

A Young Man 26

Tongue fused Percussion
left side almost tympanitic
low towards the back flat
while on the back on the
sitting posture in the
same place we find flat
therefore we have Liquid
in the cavity of the Pleura
we find he had Pleuritis
we blistered & we find the
Liquid diminished we
find percussion dull on the
Right side

Old Patient who got large
Quantity of Sulph Quinine
we used the ophthalmi-
scope & found the retina
congested

1. 19.39

A Patient 25 who has
Rheumatism in the Thoracic
Joint Local Chronic
used the blister & repeat

His case Softening of
the brain with Anarosis
& also Paralysis in the
limbs Showing disease in
the spinal column we
purged & endeavored to keep
up slight Salivation for
some time he has now
slight Phthisis Local case
we will now put a blister over
the Lumbar Vertebrae

General Palsy affecting
all but the face proving
that the disease is in

Dr Wood 1. 19. 59

The spinal column we
have been blistering even
the spine & Tersi for
Anemia
had it six weeks before
he came in.

Epileptic case old
